

**Date:** 20-Apr-2026

**To:** Parents and Guardians of Registered Students for NAEA Selective Final Test

**Subject:** Official Guide and Instructions for the Selective Final Test

Dear Parents and Guardians,

Thank you for choosing CS Education for the Selective Final Test. We appreciate your dedication to your child's academic journey. This assessment serves as a valuable diagnostic tool, providing you with a comprehensive overview of their academic strengths to help guide their preparation for upcoming educational goals.

Because this examination will be conducted entirely online, we want to ensure that both you and your child are fully prepared for the technical aspects of the testing day. Please read through this comprehensive guide carefully to avoid any access issues on the day of the exam.

## Part 1: Pre-Exam Account Preparation

---

Your first step in preparing for the exam actually begins before the test date. Following your successful registration and purchase, an order confirmation email was automatically sent to the email address you provided.

Located within that confirmation email is a highly important link to change and set your password. We strongly advise that you click this link and create a secure, memorable password immediately upon receiving it. This will ensure your child's account is fully activated and ready to go well in advance of the test day.

## Part 2: Exam Day Instructions

---

On the scheduled date of the Selective Final Test, please ensure your child is seated at a computer with a stable internet connection in a quiet environment. When it is time to begin, please follow these exact steps:

1. **Navigate to the Portal:** Open your web browser and go to the official testing website: <https://testbank.com.au>.

2. **Access the Login Page:** Look to the top right-hand corner of the homepage and click on the **Sign In** button.
3. **Enter Credentials:** Log in using your assigned username and the new password that you established during the pre-exam preparation step.
4. **Locate the Exam:** Once you have successfully logged into the dashboard, locate and click on the link labeled **My Test** in the navigation menu.
5. **Begin the Assessment:** Within the "My Test" section, you will see the Selective Final Test listed. Click on it to begin the examination.

### Part 3: How to View Your Results

---

Following the completion of the exam, your child's results will be available for viewing for a period of up to two weeks.

To access the results, simply repeat the login process used on the exam day:

1. Navigate to **Testbank.com.au** and **Sign In**.
2. Click on the **My Test** link in the navigation menu.
3. Within the "My Test" section, you will now see a new link labeled **My Review**.
4. Click **My Review** to view your child's full results and performance on the prediction test.

Note: **The full analysis report** is compiled only after all students have completed the test, so it may take some time to be available.

### Part 4: Important Technical Notes

---

Please be fully aware that the Selective Final Test is strictly time-locked to maintain the integrity of the exam. If you log in and check the "My Test" section on any day prior to the official exam date, **the test will not be visible**. It will only appear in your account on the specific date of the exam. Please do not be alarmed if you cannot see the test during your initial account setup.

If you have any questions prior to the exam or experience any technical difficulties during the setup process, please contact our support team at **0429-583-973**  
**shivam@cseducation.com.au**

Thank you once again for choosing CS Education. We wish your child the absolute best of luck on their test!

Sincerely

**NAEA an associate of CS Education**
